

L'huile des records du monde

OFF ROAD CHAIN LUBE

USES

This oil is particularly adapted to the lubrication of off-road motorcycle chains (cross, enduro, trial) and road motorcycles at **moderate speed** (tourism, road, short trip).

For **high speed** biking (competition, motorway) and karting, use preferably Yacco **ROAD CHAIN LUBE**

PROPERTIES & ADVANTAGES

- High **lubrication power**
- Protection of the **toroidal joints** (O-Ring)
- Outstanding **water resistance**
- Good adhesion capability
- **Excellent penetrability** into the chain links
- Prevents sand and dust sticking
- Very good **anti-wear** and **anti-corrosion** properties
- **Specific additives** provide extended life of the chain
- **Reduces** friction and wear

OPERATING PROCEDURE

1. Clean up the chain
2. Shake the aerosol
3. Spray on the internal face of the chain
4. Let the oil penetrate a few minutes
