AQUA GREASE

Lithium/Calcium grease insoluble in water

APPLICATIONS

Extreme pressure grease totally insoluble in water. Tacky consistency and strong adherence allows a wide range of application for many types of equipment: marine, gardening, agriculture, public works, transportation, industry...

MAIN CHARACTERISTICS

	Data
Colour	Amber
Dropping point (°C)	>180 °C
Thicker	Lithium/Calcium
4 Ball EP Weld Load	250 kg
Base oil viscosity at 40 °C	250 mm ² /s
EMCOR test distilled water/salted water	0/0
Salt spray test (EN 50326)	No corrosion

The data given in this table are typical production values and cannot be considered as specifications

PROPERTIES & AVANTAGES

- Excellent protection against corrosion. Ideally suited to marine equipment (chandlery) exposed to sea water and mist.
- Excellent adherence and tacky consistency for wider regreasing intervals.
- Good extreme pressure properties provide excellent protection to heavily loaded parts (bearings, ...)
- High dropping point (180 °C) for increased resistance on parts subject to high temperature load.
- Good protection against wear and rust

SPECIFICATION

Grade N.L.G.I.2

Range of temperature: -20 °C/+140°C
