

L'huile des records du monde

GRAISSE HP

Molybdenum disulphide extreme pressure grease

USES

Especially recommended for **severe uses**, YACCO HP grease provides exceptional lifetime.

Suitable for equipment exposed to bad weather conditions and subject to heavy loads: trucks, construction and agricultural applications.

MAIN CHARACTERISTICS

	Typical Values
Colour	Black
Aspect	Smooth
Consistency (penetrability 60 strokes)	265-295 (10^{-4} m)
Drop point	192°C
Soap type	Lithium
Seizure load (kg)	315

The data given in this table are typical values from production and cannot be specifications in any case.

PROPERTIES & ADVANTAGES

- Colloidal suspension of micronized molybdenum disulphide
- Excellent **extreme pressure** and **anti-wear** properties
- **Water insoluble** formulation
- Operating temperature range from **-20°C up to +130°C** (140°C max)

CLASSIFICATION

NLGI 2

ISO 6743-9 _ ISO-L-XBCHB 2

DIN 51502 _ DIN GP2N-25
