

L'huile des records du monde

YASOLVANE

Multipurpose Degreaser

USES

Multipurpose degreaser. Clean the engines, the mechanical parts and the industrial floors **in cold conditions**.

Use with caution: do not use on hot surface!

MAIN CHARACTERISTICS

	Values
Density at 20°C (Kg/m ³)	800
Aspect	Fluid liquid
Color	Light yellow
Smell	Light
Flash point Cleveland open cup °C	68

The data given in this table are typical values from production and cannot be specifications in any case.

PROPERTIES & ADVANTAGES

- Good wettability, detergent, dispersing and emulsifying properties
- Forms a “milky” emulsion in contact with water
- Degreaser in cold conditions (**do not apply in hot conditions**)

DIRECTIONS

- Small mechanical parts

Plunge 15 to 20 minutes in the product, brush and rinse with water then dry with an air compressor blow gun

- Big mechanical parts

Spray the product and let it penetrate during 15 to 20 min., brush if necessary then rinse with water jet.

- Passenger cars, agricultural or leisure boats engines

Protect electrical circuits with plastic film, then apply with a brush or spray the product. Let operate for 15 to 20 min., rinse with water then dry with an air compressor blow gun

CAUTION USE

Before use, read carefully the safety label on the packaging and/or check the Health and Safety Sheet available on yacco.com.

Do not use in grease remover machines designed for alkaline detergent.
