Hand cleaner soap

USES

YACCO HAND CLEANER soap has been specially developed to clean mechanics' hands. It has a specific hypoallergenic formula with soft microbeads, which ensures a gentle cleaning. It dissolves grease, grime, paints and sludge, while being soft with the skin.

MAIN PHYSICAL DATA

	Values
Colour	beige
Appearance	Soap paste

pH at 20°C	6.5

The data given in this table represents typical production values and should not be taken as specifications.

PROPERTIES & ADVANTAGES

- ▶ Compliance with Regulation (EC) n°1223/2009 of the European Parliament and the Council of 30 November 2009 on cosmetic products
- ▶ Free of petroleum-based solvents
- ▶ Prevents skin irritation
- ▶ Leaves your hands with a smooth clean feeling
- ▶ Soft active microbeads make the soap more effective on dirty hands

DIRECTIONS

Apply the hand cleaner gel on dry hands, rub hands thoroughly. Wet hands with water and rub them together. Rinse with water. Repeat if necessary.

PRECAUTIONS FOR USE

In case the ambient temperature changes, apply the hand cleaner to damp hands.
Keep out of reach of children. Do not swallow. Avoid any contact with eyes and mucous membranes.
Keep away from frost and close the container securely after use to prevent the soap from drying out.
